

148.5*210 mm

Digitalt Skjutmått 150, 200, 300 mm

Reading	0,01 mm
Accuracy	$\pm 0,02 + 0,00005 \times L$ mm
Repeatability	$\pm 0,01$ mm
Operation temperature	+5...40 °C
Storage temperature	-10...60 °C
Battery	1,5 V Type SR 44

IN/MM Switch between metric and inch.
ZERO Zero set the display in any position.
ABS (Only 2928-0146). Switch between absolute value and relative value. When INC shows on the display a relative zero is set. Push again ABS button and the display return to absolute value.

BATTERY Replace battery when battery symbol is shown on the display. Battery life 1 year continuous operation or 2 year under normal operation. Remove the battery if not in use for a long time. The battery lid is placed on front side. Push the lid down.

MAINTENANCE Avoid from contact of all kind of liquids, connection to voltage, magnetic fields, shocks, impacts, drops etc. Use a dry rag or similar for cleaning. Lubricate all metallic parts with fine oil to guaranty a good mechanical function and avoid rust.

TROUBLE SHOOTING	Possible causes	Solution
Flashing digits	Low voltage	Replace the battery
No display	1. Low voltage 2. Poor contact	1. Replace the battery 2. Clean the battery and battery seat. Make sure + is upside
Fixed digits	Accidental trouble in circuit.	Take out battery and replace it after 2 minutes.
